

spare

The intelligent operations platform powering modern paratransit

BY THE NUMBERS

400+ Transit services running on Spare

25 million+ Rides powered annually

200+ Trusted transit and technology partners

CapMetro

Deliver service your community can count on

Spare connects your operations, drivers, and riders, giving you complete visibility and control across your entire service.

Modernize how your teams work

AI automation reduces manual work and lets staff focus on supporting riders.

Gain full fleet visibility and control

See every vehicle, trip, and issue in real time so your team can respond quickly and keep service reliable.

Use data to drive performance

Get insights and predictive analytics that improve resource allocation, on-time performance, and compliance.

Modernize with a partner who knows transit

Work with transit experts who tailor setup, integrations, and training to your agency's goals.

This is more than just new software—it's a leap forward for how we serve our riders."

— Ted Ross,
Executive Director, Gulf Coast Transit District

The connected foundation for modern paratransit

Spare unifies service planning, operations, driver management, and rider engagement - giving your team one intelligent system to plan, deliver, and optimize service.

Powered by Spare Engine — the AI-native core connecting every part of your service.

AGENCY OPERATIONS

Command and optimize your service in real time

Centralize scheduling, dispatch, and fleet coordination with tools that adapt as your service evolves.

- Real-time fleet visibility and status
- Live alerts and performance insights
- Integrated service recovery and team communication
- Support for agency-operated, contracted, and on-demand fleets

RIDER EXPERIENCE

Give riders confidence and control

Deliver an experience that reduces friction and builds trust.

- Trip booking and tracking across channels and modes
- Real-time updates and automated reminders
- 24/7 phone, web, and chat access
- Fewer no-shows and higher satisfaction

AGENCY INTELLIGENCE

Turn data into better decisions

Use AI-driven insights to improve efficiency, compliance, and service quality.

- Predictive analytics and performance dashboards
- Automated FTA and ADA reporting
- Workflow automation with Spare AI
- Continuous learning from operational data

A partnership built on shared success

Spare works alongside your team from discovery through launch and beyond. You're not buying software—you're gaining a partner invested in your success.

“Spare recognizes the importance of partnering with and listening to transit professionals to make improvements and to develop new features and enhancements. In Austin, they have met with drivers, dispatchers, customers, schedulers, and management and we are seeing excellent results.”

— **Art Jackson**, Vice President of Demand Response CapMetro
